PROFESSIONAL SUMMARY

Recent FSU Information Technology graduate and hands-on experience in Python (pandas, NumPy), SQL, Excel, and Data visualization. Proven ability to translate complex datasets into actionable insights through statistical analysis and clear visual storytelling. Bilingual professional (English, Portuguese) with a 3.95 GPA and strong analytical and communication skills.

EDUCATION

Florida State University May 2024 – May 2026
Bachelor of Science in Information Technology | GPA: 3.956 | Awards: President's List (+36 credits) | Dean's List (+12 credits)

SKILLS

Data & Analytics: SQL (Intermediate), Python (pandas, NumPy, SciPy), Excel (Advanced), Data Visualization, Data Modeling. **languages:** English (Fluent), Portuguese (Native), Spanish (Intermediate)

PROJECTS

- MRI Reconstruction Using Compressed Sensing** — Python · NumPy · SciPy
- Built a compressed sensing data pipeline in Python (NumPy, SciPy) to reconstruct MRI images from undersampled k-space data, applying ISTA/FISTA optimization algorithms.
 - Quantitatively evaluated reconstruction quality across 5+ sparsity levels using PSNR and SSIM metrics; results visualized in a comparative performance analysis presented to peers.
- Florida Universities Social Media Analysis** — Data Analytics · Excel · Visualization
- Collected and analyzed Instagram and LinkedIn engagement metrics across 12 Florida universities over 7 weeks, identifying top-performing content types and optimal posting patterns.
 - Translated findings into data-driven recommendations delivered in a structured group presentation.
- CNN Deep Learning Presentation** — Python · Deep Learning
- Designed and delivered a 40-minute technical lecture on CNN architecture to a graduate-level class, covering filters, feature maps, pooling, and real-world applications including medical imaging.

PROFESSIONAL EXPERIENCE

- Tallahassee, FL – Tallahassee, FL** Jul 2024 – Dec 2025
Barista Lead
- Led a team of 6 baristas in a high-traffic campus café, coordinating daily operations and maintaining service quality standards during peak hours.
 - Onboarded and trained +4 new hires, building structured workflows and coaching materials that reduced ramp-up time and improved team consistency.
- Miami, FL – Miami, FL** Nov 2023 – May 2024
Clerk, Campus Administration
- Organized and maintained 200+ administrative contracts and records, ensuring 100% accuracy and same-day retrieval for staff and faculty.
 - Built and maintained Excel tracking systems for departmental scheduling and event logistics, supporting 10+ concurrent campus events per week.
 - Streamlined interdepartmental communication workflows, reducing document turnaround time and improving coordination across a 5-person administrative team.
- Miami, FL – Miami, FL** Sep 2023 – Nov 2023
Coding & Technology Tutor
- Tutored 10+ undergraduate students in introductory coding and Microsoft 365, translating technical concepts into clear, practical explanations tailored to individual learning styles.

LICENSES & CERTIFICATIONS

AI Fluency — **Anthropic** Issued Apr 2026
Data Analytics Foundations — **Google** Issued May 2026
AI Fundamentals — **Google** Issued Apr 2026
